

STATEMENT OF PURPOSE

RS19346

When school district boundaries are changed, an election is required. A legal description of the boundary change must be included in the petition for annexation or excision. An incorrect legal description may invalidate the election and this bill will require the petitioners to provide a professionally prepared legal description in their petition so second elections will not be needed.

FISCAL NOTE

None to the general fund but a potential savings exists to school districts that can avoid second elections.
